Jay,

Ms. Passero is NOT representing the Belmont Fire Department.

Hi Jay,

No, we are not aware of this. As you know, the Chief of Department or his designee will represent the department. I believe she probably saw our original report identifying the 5 areas of concern and may be formulating her own opinion of operations and costs.

We have not had any forum to discuss the areas of concern in our original report. We have only had agreement on the site stage we spoke about and issued the second report on August 14th if I'm not mistaken (hydrants; fire lanes; access; etc.).

Are either of you aware of this and, if so, are you ok with Ms. Passero representing your respective departments?

Thanks,  
Jay

Jay,

At the ZBA meeting on January 17th, I propose to present information on the additional cost to the town for police and fire protection and other public safety issues at the proposed project at the Uplands. The presentation will include statistics on the number of incidents requiring police and fire attention in Belmont now and extrapolations covering the potential number of incidents and increased costs to the town associated with them for covering the proposed development. I am working with a CPA to prepare the information. Please confirm the ZBA's acceptance of this proposal as soon as possible.

Thank you, Barbara

Barbara,

On the 3rd, there will be comments from FST on the design of the holding tank. A letter from BSC on the site traffic impacts resulting from the non-widening of Acorn Park Dr will be read into the record. The meeting on the 17th has no agenda at this time.

Thanks,  
Jay

Hi Jay,

Please confirm that there will be two more public meetings: Jan 3 and 17. Also, please let me know whether either of these meetings has a special focus or topic.

Thank you, Barbara
