**McLean Barn CPA Subcommittee  
May 21, 2018 8 AM**

Members Present: Lauren Meier, Lisa Harrington, Radha Iyengar, Terry McCarthy Ellen O'Brien  
Cushman

Others Present: Staff Planner Spencer Gober

The meeting was convened at 8 am.

Given that the CPA McLean Barn Stabilization project was approved by Town Meeting on May 7<sup>th</sup>, a brief review of the presentation, questions and discussion at Town Meeting was held.

Lauren Meier did a masterful job of presenting the case for this project. As anticipated, there were some reservations expressed by Town Meeting Members who preferred to know a final use for the Barn before investing the money to stabilize the Barn. In addition, some seem to believe that the use of the historic "bucket" of funds could somehow be used instead for recreation/open space which is not the case. Final vote 181 in favor, 59 opposed.

it's time to look forward. Now we will work with Spencer, Sullivan and Vogt to create the RFP (Request for Proposals) to actually perform the Spencer, Sullivan & Vogt Stabilization work as articulated by the Conditions Assessment Report. A vote was taken to authorize Spencer, Sullivan & Vogt to go ahead with development of the RFP materials in anticipation of committee review commencing in July.

Committee meeting adjourned at 8:45 AM.
