Tennessee Gas, Buckeye Pipeline, Mobil Gas, or other long distance gas pipeline		1						1					1					

21 Plus 2 hard copies of Colored Plans

* Some Municipalities may have the same office review these plans. Therefore, each department may not have to receive an individual set. The consultant should determine if each department's review and subsequent plans submittal is applicable.

** If the project includes a bridge, the highway plans must include: Bridge Typical Sections; Elevation View; and Utility Details (hangers, conduit, bays, etc.)

*** All plan submissions must include a set for the DUCE for their use at field meetings, etc. This is in addition to the plans submitted for review.
