

RECEIVED
TOWN CLERK
BELMONT, MA

2015 NOV 23 PM 12:10

**Belmont Community Path Implementation Advisory Committee
Conference Room 2 Belmont Town Hall
Minutes of October 14th Meeting**

In attendance were Committee Chairman Russell Leino, Co-chairman Michael Cicaese, Brian Burke, Vince Stanton, and Heather Ivestor as well as Town Planner Jeffrey Wheeler and about 15 members of the public.

6:05 P.M. Having 5 members present the meeting was called to order

Chairman gave updates of the Legislative progress and the additional \$100,000 dollars funding. Some discussion ensued about the flexibility on number of items or choke points that could be included.

Further updates from committee members that were in contact with Waltham and members that were following the meeting on Commuter Rail MBTA proposing to combine or close one station.

Floor was opened to the public for any comment because the remainder of the meeting was to be dedicated to rating system for choke points for the feasibility study. Neighbors from the Clark St. area voiced concern about the Belmont Housing Authority only having access through the upper level and they were in opposition to anything that infringed the access.

After some time a point of order was made by Burke to focus back on rating system. After a 45 minute back and forth by members it was decided to use what has already been put together and rate the various sections at a later date. Jeffrey reminded everyone of the timetable and all agreed.

Motion was made to adjourn at 7:45 P.M.
