6:09 P.M. Having 4 members present the meeting was called to order

Member Brian R. Burke agreed to act as recording secretary.

Motion made and passed to accept minutes of October, 14 2015 and August 26, 2015 meetings with minor changes.

Vince outlined MBTA meeting chaired by Selectman Baghdady and noted that more meetings were planned. The concept of one station and costs of handicap access utilizing the ramps that are part of some of the paths under consideration were discussed.

Brief update and discussion of the funding of the State for the additional \$100,000. Budget still in flux and we will not know until end of the year.

Reviewed the drafted sections of the RFP. Much discussion revolved around "deliverables"; consensus of the Committee was to minimize and add more lengthy descriptions on the appendixes.

Floor was opened to the public for any comment. Some residents of the Clark Road area and Channing Road portion of the path restated some of their concerns and thought that other paths that were taken off the table in the prior committees report should also be included for the feasibility study. Brian stated that it was not the charge of this Committee and that we were given the CPAC routes; all other areas were access points and upgrades of existing road paths.

Motion was made and adopted to adjourn at 7:35 P.M.
