115 kV Update:

Bob Mclaughlin reported that they were working with the Purecoat owners in regards to the purchase and sales agreement. However, those negotiations have come to a stop. He stated that the site was found to have containments located on the property and the owners are in the process of trying to eliminate those hazards. Therefore, Mclaughlin said that wording needs to be added to the purchase and sales stating it is the seller's responsibility to deliver a site that is clean.

It was then discussed that the communication plan needs to be completed and distributed to the town meeting members as soon as possible. Palmer stated that a newsletter will be distributed. The more positive information provided to the public the better before going to Town Meeting.

Adjourned:

The meeting was adjourned at 6:40 p.m.
