

One week lookout, week beginning May 23rd

Belmont Center project:

- Complete sidewalk work on Leonard Street at Channing Road and Concord Ave. East of bridge. *This work will not affect parking, however, for short intervals; it might reduce 2 way traffic to one alternating traffic.*
- Begin installing granite curbing and prepare for installation of wheelchair ramps at the intersection of Leonard at Alexander. *This work will affect 2 parking spaces on Leonard Street adjacent to the newly created wheelchair ramps.*
- Reset some of the granite curbing on Concord Ave. West to the Green space, near the granite wall. *This work will not affect traffic or parking.*
- Remove asphalt and begin grading work on Leonard Street extension, in front of Belmont Savings Bank. *Parking in this area will not be available during working hours and access to garage will be available either from Moore Street OR from Concord Ave.*
