

July 28, 2016

Dear Resident,

WEATHER PERMITTING (loss of a day to bad weather adds an additional day to the currently projected completion date)

Beginning Friday July 29th 2016 and continuing on Monday August 1st and Tuesday August 2nd, the Town of Belmont's General Contractor Charles Contracting will begin intermediate course paving within the Belmont Center project. The hours of construction are expected to be 7 AM to 5 PM. The following is the schedule of roads to be paved, expected traffic pattern and parking restrictions:

Friday July 29th - Pave the roadway surface on the **westbound side of Concord Avenue** beginning at the Post Office and continuing under the bridge occupying one lane (northbound) then further continuing onto **Channing Road, Cross Street, Claflin Street** and continuing onto the northbound side of **Leonard Street** until opposite Moore Street. There will be no parking between the hours of 5 AM and 5 PM on both sides of Concord Avenue (from the Post Office to the bridge), Channing Road (from Leonard Street to Farm Road), and Cross Street and Claflin Street at the intersections of Channing Road. Two lanes of traffic will be accommodated on Concord Avenue. One travel lane providing one direction of travel will be provided at all times on Leonard Street. The other direction of travel will be detoured. The travel and detoured lanes will be determined based on where the paving operation is occurring. **No parking will remain in place all day during the construction hours or until the pavement surface has been allowed to cool.**

Monday August 1st- Pave the roadway surface on the eastbound side of **Concord Avenue (opposite the Post Office) and Common Street (near the Lions Club Building)** and continuing under the bridge onto the southbound side of **Leonard Street, including Moore Street**, and continuing until #50 Leonard Street. There will be no parking on both sides of Concord Avenue (from the Post Office and near the Lions Club Building) and both sides of Leonard Street (from under the bridge to Pleasant Street) between the hours of 5 AM and 5 PM. Two lanes of traffic will be accommodated on Concord Avenue.. One travel lane providing one direction of travel will be provided at all times on Leonard Street. The other direction of travel will be detoured. The travel and detoured lanes will be determined based on where the paving operation is occurring. **Please note: Individual parking spaces along Concord Avenue and Leonard Street will be made available as soon as the pavement has been allowed to cool, and can be opened to traffic.**

Tuesday August 2nd- Pave the roadway surface along both sides of **Leonard Street** (from #50 Leonard Street to Pleasant Street). There will be no parking on both sides of Leonard Street from Moore Street to Pleasant Street between the hours of 5 AM and 5 PM. One travel lane providing one direction of travel will be provided at all times on Leonard Street. The other direction of travel will be detoured. The travel and detoured

lanes will be determined based on where the paving operation is occurring. **Please note: Individual parking spaces along Concord Avenue and Leonard Street will be made available as soon as the pavement has been allowed to cool, and can be opened to traffic.**

For any questions or concerns about the project please contact Robert Bosselman, Resident Engineer in the Office of Community Development, at 617-993-2665.

Thank you for your continued patience and understanding.
