Original Railing – Along Drive

Original Railing – Dimensions

CURVED RAILING ALONG DRIVE

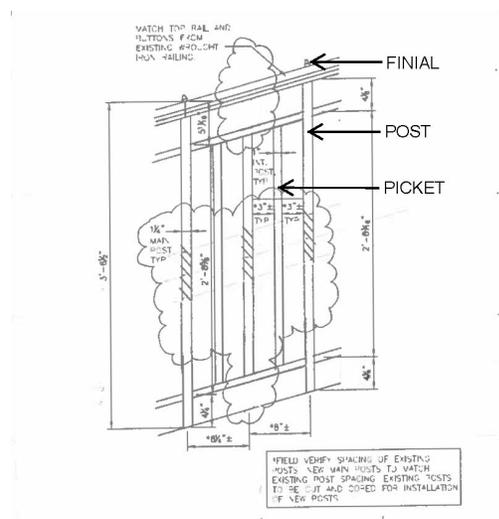

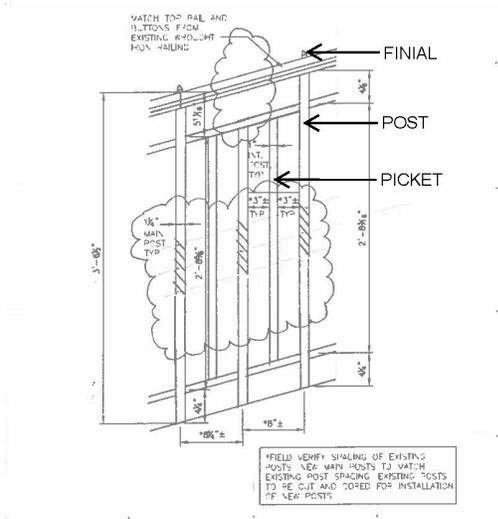

APPROVED AT 01/2025 HDC MEETING

Discussion that post spacing to match holes of existing post spacing (no new holes to be drilled in granite)
Post spacing on progress drawings shown as 14"
Actual post spacing is roughly 8-1/2" on center

CONSTRUCTION BID DOCUMENTS

Per 01/2025 meeting, post spacing revised to 8-1/2"
As a result, Bid Documents were shown as follows:

- One picket between posts, not two pickets
- Finials at 8-1/2" and not 17" as in original railing
- Horizontal space below top rail extends 8-1/2" and not 17" as in original railing

PROPOSED REVISION – OPTION 1

Same as Bid Documents except as follows:

- Finials at 17" as in original railing
- Horizontal space below top rail extends 17" as in original railing
- Spirals centered as in original railing

PROPOSED REVISION – OPTION 2

Same as Option 1, except as follows:

- Only posts with finials go down to the granite
- Intermediate post/picket does not go to granite
- Every other hole in granite must be filled

This option is in response to a comment/suggestion made during the 01/2025 HDC meeting
