

Vaccine Catch up Clinic

The Belmont Health Department in partnership with VaxxinateRX, will be offering a clinic for individuals to receive vaccines that they may be behind on or missing altogether. If you are an adult, and it has been more than 10 years since your last tetanus containing vaccine, you may be eligible to receive a TDAP (Tetanus, Diphtheria, and Pertussis) vaccine at our upcoming clinic. This is recommended especially if you have young children, or spend time around young children.

Belmont's Vaccine Clinic will be held on:

Monday April 10
From 4 pm to 6 pm

at

Conference Room 1
Belmont Town Hall
455 Concord Ave, Belmont

By
Appointment
Only!

Insurance is required to receive these vaccines. Please bring your insurance cards. Please note that at this time, Harvard Pilgrim health insurance does not pay for these vaccines to be given outside of a doctor's office. Please call us with any questions regarding this.

Vaccine	Dosage Information
<u>TDAP</u>	1 dose required for school entry, and 1 additional dose is recommended if you have not received any tetanus containing vaccines in the past 10 years.

If you are not sure that you are eligible or recommended for this vaccine, please reach out to your primary care physician.
