Planning Board

APPLICATION FOR A SPECIAL PERMIT

Date: August/5/2202

Planning Board
Homer Municipal Building
19 Moore Street
Belmont, MA 02478

To Whom It May Concern:

Pursuant to the provisions of Massachusetts General Laws, Chapter 40A, Section 9, as amended, and the Zoning By-Law of the Town of Belmont, I/we the undersigned, being the owner(s) of a certain parcel of land (with the buildings thereon) situated on 277 Channing Street/Road, hereby apply to your Board for a **SPECIAL PERMIT** for the erection or alteration on said premises or the use thereof under the applicable Section of the Zoning By-Law of said Town for _____ creating an addition to an existing single family home. Adding 4 feet along the western side of the structure, as well as building up 1 and 1/2 stories.

on the ground that the same will be in harmony with the general purpose and intent of said Zoning By-Law.

RE: Denial to Construct an Addition

Dear Isaiah Berson,

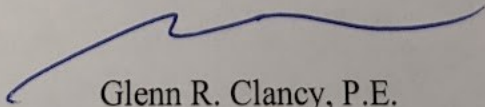

The Office of Community Development is in receipt of your building permit application for the construction of an addition at 277 Channing Road located in the Single Residence C (SR-C) Zoning District.

Your application has been denied because it does not comply with the Zoning By-Law. More specifically, §1.5.4C(2) allow expansions more than (30%) of the existing Gross Floor Area in the Single Residence C district by a Special Permit granted by the Planning Board. Also, §4.2.2 of the Zoning By-Law requires a minimum 25' front yard setback and a 10.0' side yard setback to the dwelling.

1. The proposed expansion exceeds the 30% existing Gross Floor Area threshold and is allowed by a Special Permit granted by the Planning Board.
2. The existing front yard setback is 19.9' and the proposed front yard setback is 19.9', a Special Permit is required.
3. The existing side setback on the side is 4.8' and the proposed side setback is 4.8', a Special Permit is required.

You may alter your plans to conform to the current Town of Belmont Zoning By-Law and resubmit a building permit application, or you may request three (3) Special Permits from the Planning Board. If you choose this option, please contact the Office of Community Development to schedule an appointment with Robert Hummel, Senior Planner at (617) 993-2650 in order to begin the Special Permit process.

Sincerely,

Glenn R. Clancy, P.E.
Inspector of Buildings

Narrative statement regarding application for special permit

After living at 277 Channing Road for 5 years, we are applying for a special permit to allow us to make an addition to our home. We are hoping to expand the footprint by 4 feet and add 1 and 1/2 stories to convert the property into a more traditional family home.

The current structure is a cheaply constructed modular one-bedroom trailer home from the 1940s. The new construction will be a more modern, lovingly built family home that will better match the style and scale of the neighborhood. The addition to the home was designed by an architect to be in keeping with the neighborhood's style and feel. The orientation, scale, and design motifs of the new structure take cues from the neighboring houses to ensure it fits in with the established character of the street. The materials selected for the exterior of the building, vinyl siding and asphalt shingles, are the design standard for the surrounding houses. The current aging structure is poorly insulated and is hard to both heat and cool. The new structure will improve energy efficiency by using better building materials as well as employing heat pumps.

The current home is non-conforming due to 1) the size of the lot 2) the east side closet, which historically was the front entrance to the house protrudes 5 feet into the east side setback and 3) the front of the house is 20 feet from the road, protruding into the front setback. The new design keeps, but does not expand, the side closet and widens the house by 4 feet while maintaining the existing distance from the road. The proposed addition does not exceed lot coverage requirements and complies with height requirements and all other setbacks.

The house was built in the 1940s at the same time as a similarly sized house next door at 279 Channing Road. The neighboring house was granted a special permit in the 1990s for a similar scale addition as we are proposing. Currently our house is positioned in line with its next door neighbor 279 Channing Road and this will be maintained with the new footprint. The design for the addition uses reduced windows on the side of the house closest to our nearest neighbor, 279 Channing Road, to maintain privacy for both houses. With the proposed design, the house will continue to be smaller than the four houses closest to it, as well as be in the bottom half of houses in the defined neighborhood with regards to square feet.

Although the proposed floor area ratio is higher than neighboring houses due to the small size of the lot, a key consideration of the design was to keep as much open green space as possible to contribute to preserving the character of the neighborhood. We plan to continue improving the garden and landscaping of the property, to create an aesthetic environment for pedestrians and neighbors.

Headroom calculation:

27.3 * 6.92 = 188.916 sq. ft
1 * 6.92 = 6.92 sq. ft
15 * 16.17 = 242.55 sq. ft
188.916 + 6.92 + 242.55 = 438.386 sq. feet of headroom above 5 feet

The area of the second floor is 739.6
438.386/739.6 = 59.27%
59.27% < 60%

Perimeter calculation:

10.63 + 10.63 + 15 + 15 = 51.26 ft
The perimeter of the second floor is 132.66 feet
51.26 / 132.6 = 38.7%
38.7% < 50%

Dormer length calculation:

15 ft dormer length / 43.5 roofline length = 34.48%
34.48% < 75%
