## **Belmont To Conduct Building Inspections**

The Belmont Office of Community Development is conducting a **Sanitary Sewer Evaluation Survey** of the main line sewers and service connections for buildings in selected areas of Belmont. As part of the study, the Town of Belmont has contracted the engineering firm of Fay, Spofford & Thorndike (FST) to perform internal building inspections for the purpose of determining sewer piping and drainage details. **The survey will not impact your property in any way and is for informational purposes only.**

The employees of FST are carrying appropriate picture identification for your security. The inspection will take about 15 minutes. The inspections are being performed Monday through Friday from 9:00 A.M. to 5:00 P.M. Inspections will begin November 5, 2007 and will take approximately 8 weeks to complete, weather permitting.

If you have any questions please do not hesitate to contact the Office of Community Development at (617) 993-2650. Additional information is available through the Town's Office of Community Development website at [www.town.belmont.ma.us](http://www.town.belmont.ma.us)
