

Join the Belmont Select Board on  
September 20, 2022 at 7:00 PM in-person  
and on Zoom for

# Discussion of DPW Salt Shed Condition

The DPW Salt Shed structure located at 37 C Street has served the Town of Belmont for 35 years since its construction in 1987 as a result of a state grant. In July 2022, clear structural deficiencies were noted by the DPW.

DPW Director, Jay Marcotte, will join the Select Board for a discussion of the shed's current condition and provide recommendations for the future of the structure to preserve a critical winter safety resource.
