Subject: Town of Belmont, Massachusetts
Illicit Discharge Detection & Elimination Program
2009 PROGRESS SUMMARY

Dear Mr. Brander:

The Town of Belmont made significant progress in 2009 with their Illicit Discharge Detection and Elimination (IDDE) program. The Town continued with design and construction for rehabilitation in the Wellington Brook Tributary Area and initiated further investigative work in the areas tributary to Outfalls 1, 2 and 10.

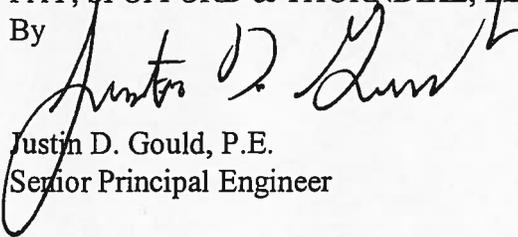

CWSRF 3097 - Contract 1, Sewer and Storm Drain Rehabilitation Wellington Brook Tributary Area, was bid on June 3, 2009 and was awarded to EnTech Corp. on October 5, 2009 for \$1,723,767.65. Award of the project was delayed until October while the Town developed appropriate protocols to support requirements of the American Recovery and Reinvestment Act (ARRA). Contract 1 includes 1,100 ft sewer and storm drain replacement, 23,200 ft sewer and storm drain lining, 67 service replacements, 40 point repairs and 16 new sewer and storm drain manholes. The expected construction completion date is June 1, 2010.

In June 2009, the Town contracted with FST to continue the IDDE program in areas tributary to Unity Ave, Huron Ave and Winn's Brook (Outfalls 1, 2 & 10) as outlined in the December 2008 Storm Water Sampling and Analysis Program. CCTV pipeline inspection, dyed-water tracing and building inspections were conducted in areas with samples exhibiting high levels of contamination. Quarterly dry weather sampling was initiated in areas where previous data was inconclusive. A report of findings will be completed in January 2010.

Very truly yours,

FAY, SPOFFORD & THORNDIKE, LLC.
