DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING, PUBLIC HEARINGS, AND PROCEDURAL CONFERENCE

D.P.U. 20-120

November 24, 2020

Petition of Boston Gas Company, doing business as National Grid, pursuant to G.L. c. 164, § 94 and 220 CMR 5.00, for Approval of a General Increase in Base Distribution Rates for Gas Service and a Performance-Based Ratemaking Plan.

On November 13, 2020, Boston Gas Company (“Boston Gas”), doing business as National Grid (“National Grid” or “Company”), filed a petition with the Department of Public Utilities (“Department”) for an increase in gas distribution rates. The Department has docketed this matter as D.P.U. 20-120 and has suspended the effective date of the proposed rate increase until October 1, 2021, to investigate the propriety of the Company’s request. The Company represents that it will implement any change in rates beginning November 1, 2021. The Company was last granted an increase in distribution rates in Boston Gas Company/Colonial Gas Company, D.P.U. 17-170 (2018).

National Grid seeks to increase its rates to generate \$220,736,830 in additional revenues. The Company proposes to transfer \$81,908,027 recovered through the Gas System Enhancement Program (“GSEP”) to base distribution rates, effective October 1, 2021. Because there is a delay in recovery through the GSEP, however, the Company proposes to not fully recover the remaining balance in the GSEP until May 1, 2022. Based on these GSEP-related proposals, the proposed overall increase to distribution revenues is \$138,828,803, which the Company states represents an 18.1 percent incremental increase in distribution revenue.

The Company also proposes to implement a performance-based ratemaking (“PBR”) mechanism that would allow National Grid to adjust its base distribution rates on an annual basis through the application of a revenue-cap formula and to put in place a set of metrics to evaluate the Company’s performance. The Company proposes to implement the PBR plan for five years with the possibility for extension. Additionally, National Grid’s filing contains four demonstration programs that the Company states are intended to further the Commonwealth’s greenhouse gas emissions goals. Additional information regarding these and all other proposals can be found in the Company’s filing.

In Boston Gas Company/Colonial Gas Company, D.P.U. 19-69 (2019), the Department approved the consolidation of Boston Gas and Colonial Gas Company (“Colonial Gas”). In the instant filing, National Grid proposes to combine the revenue requirement for the two companies, although Boston Gas and Colonial Gas will continue to maintain separate rates.

National Grid states that if its petition is approved as requested, the proposed revenue increase will have the following effects from November 1, 2021, through April 30, 2022:

For Boston Gas Customers, the Company states:

- a typical residential non-heating customer using 94 therms per year will experience an annual bill increase of \$16.55, or 6.2 percent;
- a typical residential heating customer using 871 therms per year will experience an annual bill increase of \$122.49, or nine percent; and
- Most commercial and industrial (“C&I”) customers will experience annual increases in the range of one percent to 13.4 percent, depending on their rate classification and level of therm usage.

For Former Colonial Gas Customers, the Company states:

- a typical residential non-heating customer using 76 therms per year will experience an annual bill increase of \$30.39, or 14.4 percent;
- a typical residential heating customer using 795 therms per year will experience an annual bill increase of \$106.50, or 9.5 percent; and
- C&I customers will experience annual increases in the range of 8.6 percent to 39.8 percent, depending on their rate classification and level of therm usage.

The Company states that the estimated recovery of the remaining balance in the GSEP on May 1, 2022, would reduce the bill increases customers experience after the Company’s proposed rates change on November 1, 2021, depending upon their rate classification and usage. In addition, bill impacts for C&I customers will vary depending upon their rate classification and level of usage. For specific impacts, please contact the Company as indicated below.

The Attorney General of the Commonwealth of Massachusetts (“Attorney General”) has filed a notice of intervention in this matter pursuant to G.L. c. 12, § 11E. Further, pursuant to G.L. c. 12, § 11E(b), the Attorney General has filed a notice of retention of experts and consultants to assist in her investigation of the Company’s filing, and has requested Department approval to spend up to \$550,000 in this regard. Pursuant to G.L. c. 12,

§ 11E(b), the costs incurred by the Attorney General relative to her retention of experts and consultants may be recovered in the Company's rates.
