

03.22.2018 BHS BUILDING COMMITTEE

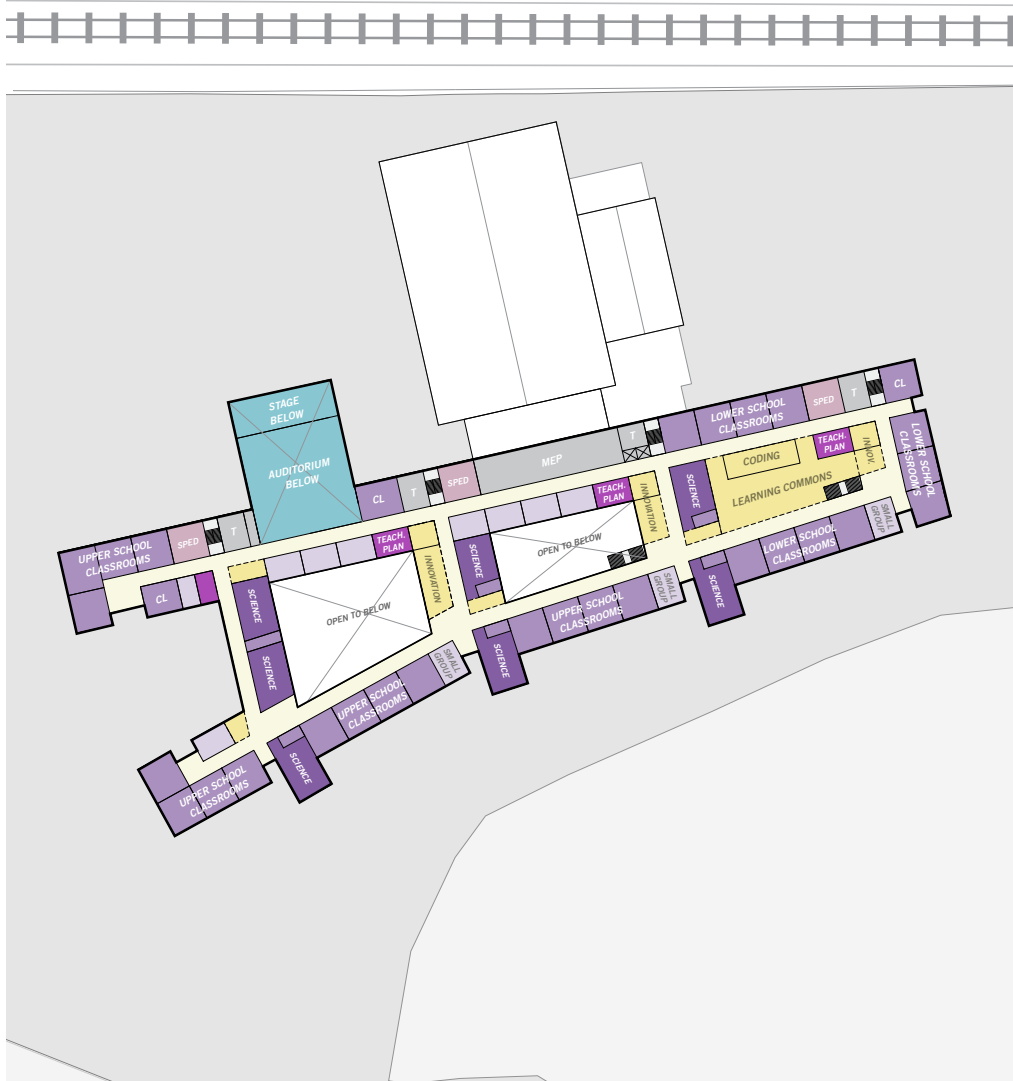

BELMONT HIGH SCHOOL

PSR SITE STRATEGY / WHAT WE'VE HEARD

- Pedestrian and bicycle focused site design
- Traffic demands require ample cueing at entry sequence
- Keeping building centralized on the site
- Explore a single phase building option
- Discussion about massing and how it relates to Concord Avenue
- Discussion about Upper School and Lower School entrances and scale
- Discussion on how the building embraces the pond and views of the site

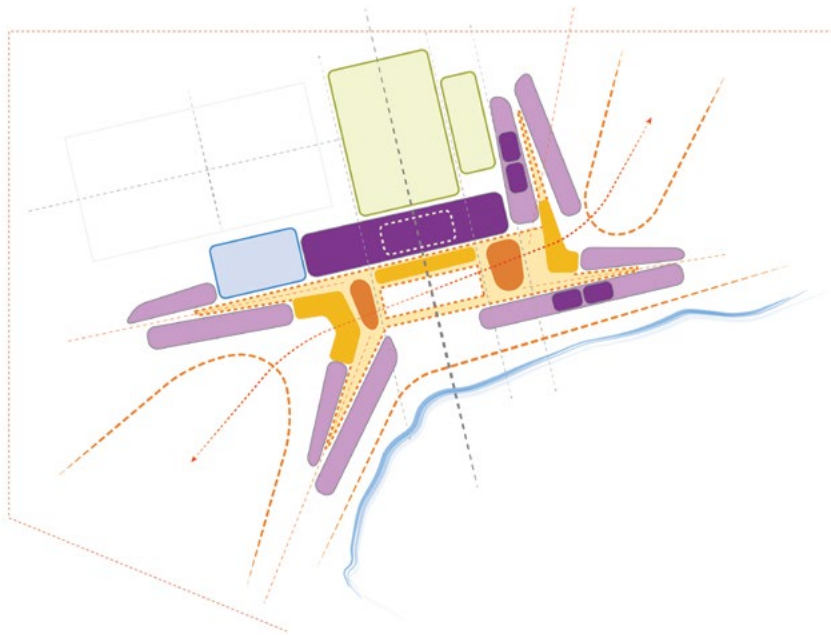

BUILDING PLANNING / WHAT WE'VE HEARD

- Discussion about HS Neighborhood. Departmental vs Interdisciplinary. Hybrid approach is good.
- Discussion about MS team organization.
- Discussion about flexibility and future changes
- Discussion about proximity and continuity of the neighborhood clusters.
- Discussion about the collocation of science
- Discussion about distribution and character of the cloud spaces
- A focus on the artful integration and meaningful separation of upper and lower grades

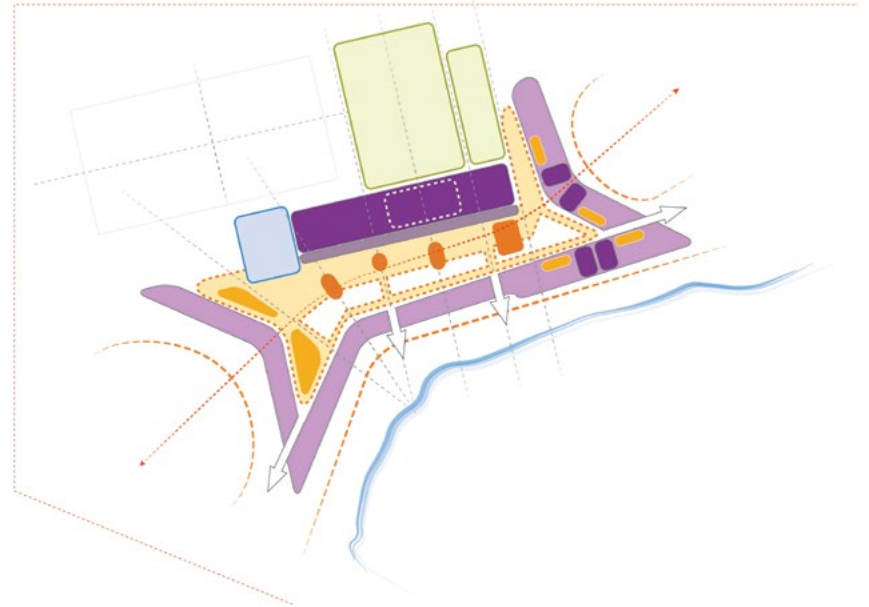

Pinwheel

- Single Central Space
- Collocated Science
- Open Building Threshold
- Central Space Opens to Pond

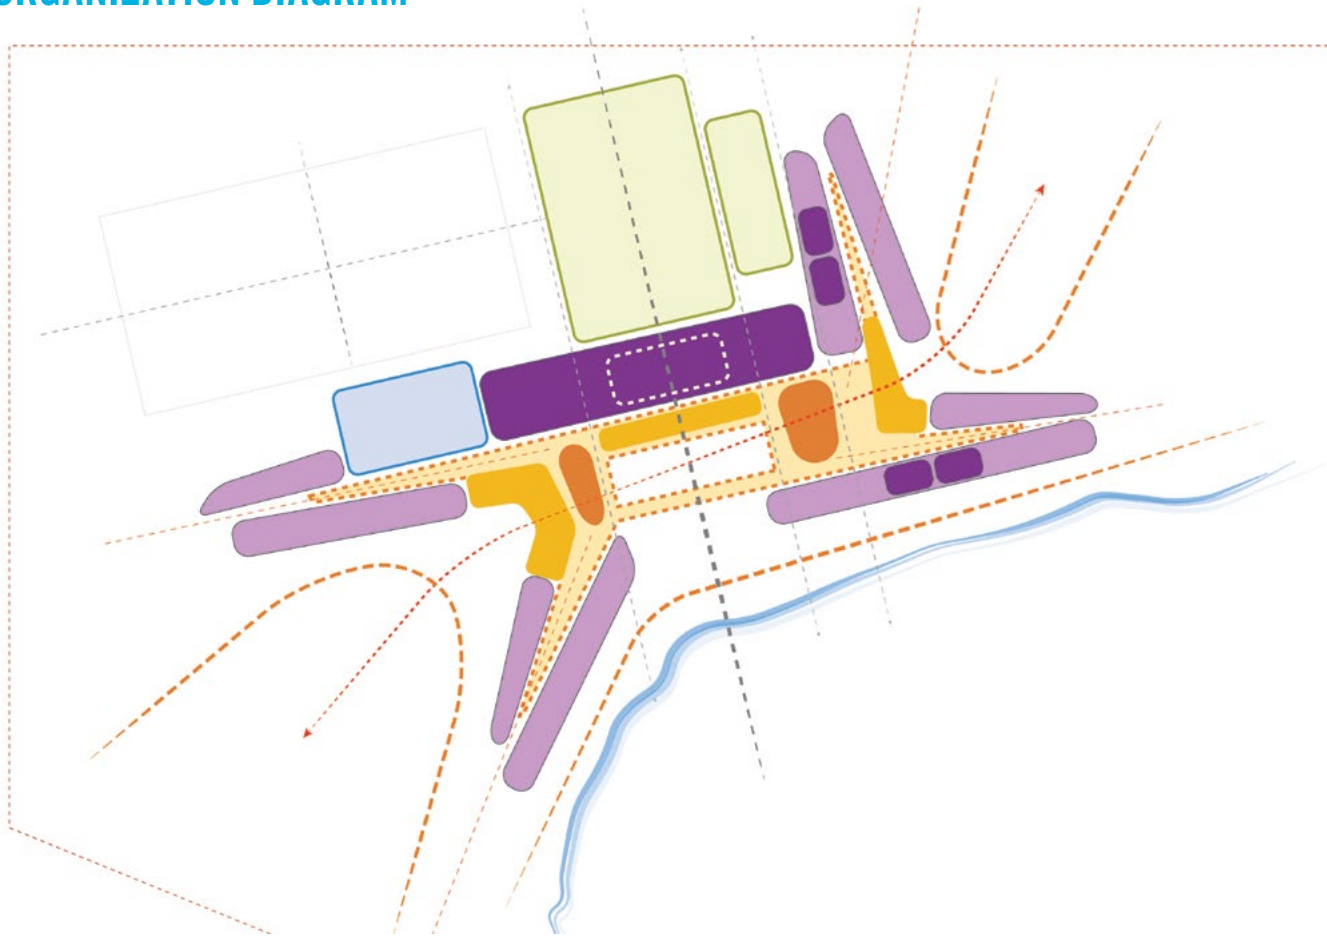

Media Terrace

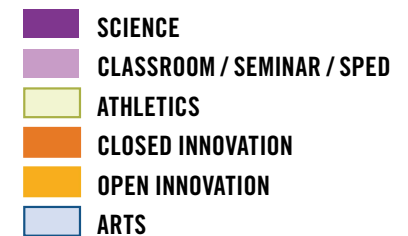

- Connected Spaces With Varying Scales
- Collocated Science
- Defined Building Threshold
- Singular Identity on Pond

PINWHEEL / ORGANIZATION DIAGRAM

- Contiguous Central Space
- Open Building Threshold
- Collocated Science
- Commons Opens To Pond

[illegible]
