Subject: RE: Erosion Control Plan /Temp. Stormwater Management Plan for Cushing Village

Hi Jeffrey:

The stormwater plan was submitted and reviewed during the special permitting phase of the project and was supplemented in January 2014. The plan has been approved. Upon the issuance of a demolition permit CD staff will visit the site and make certain the plan is being properly implemented.

Thanks, Glenn

Glenn/Ara –

I need a brief statement from you for tonight's meeting stating that you've reviewed the submitted Erosion Control and Temp. Stormwater Management Plan and they are fine –

Thanks,

Jeffrey
