Description

CE 2260 Added Scope for Risk 3 PV Racking System

Notes

This PCO is to track additional cost related to the PV racking system scope. PV specification 263100 2.3D note that the racking system is to be completely ballasted without the use of mechanical attachments. Based on the layout shown in the contract documents and the wind classification of the project site. 1267 mechanical roof attachments are required to support the system. This proposal includes the cost to furnish, install and coordinate the additional roof attachments required but not detailed/ quantifiable in contract documents. All costs related to schedule delays have been excluded from this revision. Any/all cost related to schedule delays will be tracked and submitted in a future cost event.

Neither the adjustments to the Contract Price nor the Contract Time upon which this PCO is based contemplates any project delays, suspensions, disruptions, cost escalations or other impacts caused, directly or indirectly, by the Pandemic (as defined in the GMP), as such cost adjustment to the Contract Sum and GMP shall be reconciled in accordance with the Owner Pandemic Allowance. Skanska further reserves all rights to request adjustment of the Contract Time as a result of the Pandemic Standards and in connection with this PCO. Skanska will make every reasonable effort to provide the required documentation and notice in accordance with this Contract, however, Skanska may not be able to meet the contractual deadlines due to circumstances outside of Skanska's control.

Schedule Impact

Skanska reserves the right to continue to assess our construction schedule on a monthly basis and advise the Owner of any impacts at that time.
