

# Building Belmont's Future

## 2023 Housing Production Plan Community Survey

The Town of Belmont is partnering with the Metropolitan Area Planning Council (MAPC), the regional planning agency for Greater Boston, and Metro West Collaborative Development, a regional nonprofit, to update the town's Housing Production Plan (HPP).

An HPP includes strategies for creating new housing in the next five years in ways that respond to local housing needs and advance the community's housing goals. Your input will help ensure that the goals and strategies in Belmont's next HPP reflect the community's priorities!

**Take an online survey to provide feedback about housing priorities in Belmont!**

You can review the content of the survey at your own pace, and start and stop as much as needed.

The survey will be open through **December 2**.
