

## **SHIFTING GEARS PRESENTED BY THE RMV**

***Fri, Sept 1 at 10:00 a.m.***

**Owning a vehicle and holding a driver's license are privileges that come with a great deal of responsibility. Recent studies show that most of us will live seven to ten years longer than we can safely drive. Crash data shows that 94 % of crashes are caused by driver error, meaning nearly all crashes on our roadways are 100% preventable.**

**The Massachusetts Registry of Motor Vehicles' Community Outreach Coordinator, Michele Ellicks, will present "Shifting Gears" - a safe driving workshop for older drivers. Join us to learn how to improve driver safety and assess your driving skills.**

**Topics include:**

- Rules of the road**
- Massachusetts Laws, including Vulnerable Road Users, Distracted Driving, and the Move Over Law; and**
- Warning signs of unsafe driving**

**The program also focuses on how age-related changes affect driving, identifies the most common collisions for older drivers, and provides safe driving tips and transportation options in your community. Please call 617-993-2970 to register.**
