## Option \# 1 - Pad-mounted Transformer

Proposed Configuration - View 2

Option \# 2 - Submersible Transformer

## LEGEND

-Drain (Existing)
_—_ Electric (Existing)
-_ Sewer (Existing)
Proposed new drainage catch basin

NOTE: There are currently nine (9) parallel parking spaces on the south-side of Leonard Street between Alexander Avenue and the loading zone. Each space is $22^{\prime}$ long. The current minimum length in use for Belmont is $22^{\prime}$ with the exception of an "end-space" being $20^{\prime}$
