

We, the neighbors of Kristin Hamann and Rodrigo Martinez of 18 Blake Street, have reviewed their plans to renovate and expand their home at the above mentioned address. We understand that the existing front of the home facing 18 Blake Street is out of compliance with zoning laws and requires a special permit to allow them to proceed with this project. We understand that all other renovation/expansion plans are within town-required setbacks. Furthermore, we support their petition for a special permit to allow them to proceed with this project.
